

MOULDED ENCLOSURES

IP56 Weatherproof

The Obvious Choice For Outdoor Applications

SPINNE IP56 ABS Moulded Enclosures are innovative weatherproof enclosure boxes with easy-to-fit features. SPINNE Moulded Enclosures can be used as junction boxes/terminal connection boxes for electrical cables supplying power to outdoor equipment. These enclosures are available in various sizes for your multi-tasking usage at outdoor and indoor such as car park, garden, pool-side, rooftop, hotel/building compound, road, road junction, factory, workshop etc.
